FUTURE POWER CAPITAL

Firm Overview

How Future Power Capital is organised, and how our activities fit together.

INSTITUTIONAL — FIRM OVERVIEW

One house, four connected areas of activity

Future Power Capital is a London-based investment house that commits its own capital to businesses at every stage, backed by real advisory work. This overview sets out how our activities connect and how the firm is organised.

Structure

Future Power Capital Ltd is a private limited company registered in England & Wales, founded and directed by Silas Trent. We act as principal in every commitment we make: the capital deployed is our own, and decisions are made under our own governance rather than on behalf of external limited partners.

Founder & Director

How our activities connect

Activity	Where it sits
Venture Capital	Earlier-stage equity participation, higher risk, minority stakes
Development Capital	Growth financing for established, profitable businesses, usually minority
Private Equity	Majority or full-buyout positions in mature businesses
M&A Advisory	Advisory support to owners around a sale, acquisition, or capital raise
Alternative Investments	Positions that sit outside listed equities, venture, and real estate
Real Estate	Property and other real assets held as part of a diversified balance sheet
Management Consultancy	Strategy and organisational advisory for portfolio companies and other teams
Wealth Management	Patient capital across the asset classes we understand

Activity	Where it sits
Deep Tech Programme	Long-horizon support for hard-science and engineering-led teams

What ties these activities together

Across every area, we apply the same approach: act as investor first, hold capital and governance ourselves, and bring practical operating judgment rather than intermediary process. This is why a founder raising development capital and a family business preparing a generational sale can both be served by the same firm — the underlying discipline does not change with the situation.

Where we are based

Future Power Capital is based at The Tea Building, 56 Shoreditch High Street, London — in the heart of one of Europe's most active start-up and scale-up neighbourhoods.

We act as an investor first, not an intermediary — every decision is made under our own governance.
